CORE SKILLS

- **Product Design**: Software Product Design, Interaction Design, Visual Design, Information Architecture, User Flows, Wireframing, Prototyping, Design Systems, Responsive Design
- **UX Research**: User Interviews, Usability Testing, User Journey Mapping, Persona Development, Competitive Analysis
- **Tools**: Figma (Advanced), Photoshop, Canva
- **AI**: AI Product Design, Prompt Engineering, AI-Assisted Design, AI Product Exploration
- **Languages**: English (Fluent), Mandarin Chinese (Native)

PROFESSIONAL EXPERIENCE

Brand Management Intern (UX Design Focus) | NIO **June 2026 – Sep 2026**

- Designed **user flows, wireframes, and UI concepts for NIO's internal software platform**, translating complex business requirements into clear and usable product experiences.
- Conducted **content audits and analyzed platform structures** across multiple brand ecosystems to identify information gaps and opportunities for information architecture improvements.
- Collaborated with brand and design teams to balance **user needs, visual consistency, and business objectives** across the digital experience.

UI/UX Design Leader | Posse.io **Apr 2026 – June 2026**

- Led **end-to-end** product design for two web products from 0 to 1, including a wine brand website and a local magazine platform across desktop and mobile.
- Defined product structure through competitive research and user insights, creating information architecture, user flows, interaction designs, and high-fidelity prototypes.
- Built responsive design systems and reusable components to improve **visual consistency, usability, and scalability across platforms.**

UI/UX Designer | End of an Era **Feb 2026 – May 2026**

- Designed **UX and interaction flows for a financial software platform**, translating complex business requirements into intuitive product experiences.
- Improved workflow usability through information architecture and interaction design, balancing **user needs with business objectives.**

Design Assistant | Runchina Company **Feb 2025 – Jun 2025**

EDUCATION

University of California, San Diego (UCSD) **Sep 2024 – Jun 2027**

- Bachelor of Science in Cognitive Science, Specialization: Human-Computer Interaction & UI/UX Design **GPA: 3.85**

PROJECTS

AI-Powered Automotive Trip Planning System | UX/UI Designer **2026**

- **Designed an AI-powered trip planning experience from 0 to 1**, turning natural-language preferences into personalized multi-stop itineraries.
- Conducted **market research, competitive analysis,** and **user research** to identify opportunities in AI-assisted trip discovery and in-car navigation.
- Designed **mobile** and **in-car experiences** for planning, scheduling, and seamless navigation.

L'Oréal Innovation Challenge | UX Designer **2025**

- Led the UX research and design process for a men's foundation product, competitor analysis, user interviews, persona development, and prototyping.
- Translated research findings into actionable design considerations to inform product and interaction decisions.

Cognitive Science Student Association — Attention Project | UX Designer **2026**

- Conducted UX research on attention and multitasking behaviors to identify user pain points and inform design decisions.
